Membership update	2 min	Secretary	Cash Payments: Keona Gaines, JaRine Johnson Check: Venmo: Heather Chancey membership link

Scholarships		President	Present scholarship criteria (member vote for approval in Sept): -Scholarship recipient must be a graduating senior, who received a letter in his senior year, and in good standing throughout the basketball season, as determined by the basketball program. -At least one parent, guardian, family member, or household member must be a premier member of the Booster Club during the athlete's senior year. -The family or household of athlete must volunteer a minimum of 20 hours during Booster Club Games and Tournaments during the season of the athlete's senior year. -In order to be eligible, the athlete must be pursuing post high school education in the fall following graduation. Students must continually stay in school in order for excess to be used in subsequent semesters following the initial fall semester. Unused portions of the scholarship will be returned to the booster club if a student discontinues their post-secondary education. Transfer students will be able to use unused portions of the scholarship amount as long as they are continually enrolled. -If, in the fall following graduation, the athlete enters full time military training in place of higher education he may still be eligible to receive his scholarship. In that instance the student must pursue higher education in the semester immediately following military service. -It will be up to the athlete to prove any enrollment that qualifies them for the scholarship award. It is up to the athlete to provide the necessary required information to the Booster Club prior to the scholarship award being issued -The scholarship amount will be paid directly to the academic institution and can be used for on campus expenses such as tuition, books, or on campus meal plans/housing.
